Foreword

Respected colleagues,

It is a great honor and satisfaction to invite You in the name of the Organizing committee to the 5th Croatian Neurological Congress with international participation and 6th Seminar of the Croatian Association of the Neurophysiology Technicians, which will take place in Vukovar, from September 30 to October 4, 2009.

Recently we are witnesses of a rapid progress in the field of neuroscience, neuroradiological and neurophysiological diagnostic methods and therapeutic approaches to different neurological diseases. Organizing committee has thought of a programme in which we will, next to interesting lectures, organize numerous discussions and workshops on the most actual themes in the field of epilepsies, paroxysmal consciousness disorders and sleep disorders, cerebrovascular diseases and intensive neurology, heredodegenerative diseases, including extrapyramidal diseases and cognitive disorders, demyelinating and neuromuscular diseases, pain syndromes in neurology and neurorehabilitation. Thus, besides domestic lecturers, we have also invited the most respectable names from abroad that especially deal with issues mentioned above.

Thereby we invite all neurologists, psychiatrists, neuroscientists, neurosurgeons, neuroradiologists, physiatrists, family physicians, defectologists, social workers and neurophysiology technicians to take part in this Congress.

We believe that Congress conceptualized in such a manner will provide rich and interesting professionally - scientific programme, but also enable us all pleasant and unbound socialization in Vukovar, city of heros, symbol of pride and courage.

Warm hearted greeting,

Assist. Prof. Sanja Hajnšek, MD, PhD
President of the Organizing Committee
